

## LITTLE GIRL MURDERED

### WOMAN ADMITS KABER DOSING

CLEVELAND — (By Associated Press) — With the arrival from New York of Mrs. Eva Catherine Kaber, widow of Daniel F. Kaber, wealthy Lakewood citizen, and her daughter, Miss Marian McArdle, under indictment for the first degree murder of Kaber, a woman arrested several days ago was identified early today as being connected with the murder plot, according to the police.

Travel-worn and weary from lack of sleep and from more than ten hours' questioning in New York, Mrs. Kaber was submitted to another severe grilling upon her arrival here late last night which continued until early today.

After Bertillon picture and finger prints had been taken, the two prisoners were confronted by the woman thru whom Mrs. Kaber is alleged to have hired the assassins to stab her husband to death two years ago, and who is alleged to have furnished poison which was administered to Kaber in his food.

Both Mrs. Kaber and Miss McArdle identified the woman. This identification brought from the San-dusky woman, police say, the admission that she had supplied "medicine" for Kaber and that it was at her home in Cleveland, shortly before the murder, that Mrs. Kaber met a man to whom, she promised \$3,000 for "doing away with her husband."

Mrs. Kaber denied every accusation made against her by the woman pertaining to threats on her husband's life.

A man held on suspicion that he was connected with hiring the two men who did the stabbing was brought before Mrs. Kaber and her daughter, but both denied that they had ever seen him.

### FRENCH JOIN IN HOMAGE TO F. GALBRAITH

CINCINNATI — (By Associated Press) — Not since the funeral of General Joseph J. Hooker, of Civil War fame, which took place in the seventies, has there been such a military funeral cortege in this city as that which will be presented as the sequel to the services this afternoon over the body of Colonel Fred Galbraith, Jr., national commander of the American Legion, who was killed in an automobile accident in Indianapolis, Thursday morning.

The funeral will be given an international phase by the presence of Marcel Knecht, French high commissioner to the United States who was a close friend of the deceased soldier and Captain Lavergne, air attaché of the French embassy at Washington, who will officially represent Ambassador Jules Jusserand. The French officials arrived this morning. M. Knecht was accompanied by two French veterans who will carry the tri-color in the funeral procession. One of the most impressive of the hundreds of floral tributes will be a palm around which will be the tri-color which will be placed on the coffin. It is the tribute of the city of Chateau Thierry, France.

With the palm will be a card bearing the inscription "To one of our bravest liberators. From the city of Chateau Thierry."

### U. S. TO SURVEY FLOODED AREAS

PUEBLO, Colo. — (By Associated Press) — With the work of emergency relief well under way under the supervision of the Red Cross, Pueblo today took steps for flood prevention.

Announcement of Mayor James M. Lovorn that a committee would go to Washington to ask the federal government's aid in preventing a repetition of the flood was followed closely by a telegram from Secretary Fall of the interior department that two engineers would be sent at once to make a survey.

Bodies are being recovered occasionally as debris is removed. In-

### WIFE BACK TO BE TRIED FOR MURDER

TWIN FALLS, Idaho — (By Associated Press) — Mrs. Lydia Southard, charged with murder in connection with the death of her fourth husband, Edward Meyer, was in jail in Twin Falls today to await trial.

"Don't let them question me," said Mrs. Southard before she was taken to a cell. "I am not well enough to see anyone."

The last 120 miles of the journey from Honolulu was made overland by automobile from Wells, Nevada, to avoid crowds. Mrs. Southard is suffering from nervous headaches with indications of a nervous breakdown, officials said.

### WAY CLEARED FOR PEACE BILL

WASHINGTON — (By Associated Press) — The Porter resolution, as reported by the house foreign affairs committee, would terminate the state of war between the United States and Germany and Austria without repealing the declarations of war, was scheduled to be called up for debate today with agreement already reached for a vote Monday afternoon. Nearly 100 members have applied for allotment of speaking time during the two days of debate.

Passage by the house yesterday by unanimous vote of the Sweet bill, consolidating government agencies which deal with former enlisted men, cleared the way for the peace resolution.

### BODY HIDDEN UNDER HOME IN JERSEY

MOORESTOWN, N. J. — (By Associated Press) — A particularly atrocious crime was revealed here today by the Burlington-co authorities when they announced the finding of the badly mutilated body of seven-year-old Matilda Russo, who had been missing since last Saturday. The police are searching for Lewis Lively, a negro, 35 years old, in connection with the killing of the child.

The child's body was found buried in the cellar of Lively's home, which is within fifty feet of that of the Russo family in East Second-st., East Moorestown. The throat had been cut and the abdomen slashed.

According to the authorities the child had been mistreated before it had been killed.

The body was found yesterday, but the crime was not revealed by the police in the hope of capturing the murderer.

Lively is employed in Philadelphia and came home to Moorestown every night. Last night he was seen in town but has not been found by the police. The little victim was the daughter of Michael Russo, a tailor.

Lively's wife was found by the police today and locked up in the Burlington-co jail at Mount Holly. She said she knows nothing of the crime.

The community is aroused and extra precautions have been taken to safeguard Lively when found.

PORTLAND, Oregon. — Roy Gardner, mail car bandit, who was being brought to the federal prison at McNeil Island from San Francisco, escaped from federal officers at Castle Rock today after holding up the officers at the point of a pistol, which he had concealed in his shirt and taking their weapons and \$200 in cash.

### DOUBLE-BOTTOM PUSH-CART PEDDLER

BOSTON. — Max Steigman, of the West End is the owner of a double-bottom pushcart and a suitcase capable of holding five gallons of ginoshine, the police declare, and they produced twenty-four gallons of alcohol in Municipal Court. Steigman was fined \$100 for keeping and exporting liquor for sale.

### SAFE BLOWN, YEGGS FLEE WITH BONDS

POMEROY, Ohio. — (By Associated Press) — Bandits blew two safes at the Talbott Wholesale Grocery in Middleport, near here, this morning, obtaining \$500 in Liberty bonds and a small amount of change. The bonds were all unregistered, except one for \$50. The robbery was not discovered until 8:30 this morning. The bandits are supposed to be the same ones who attempted to rob a bank at Vinton, Ohio, the night before.

### FIRE DAMAGE OF \$500

Fire, believed to have been caused by an over-heated gas stove in the home of Clarence R. Engle, 475 W. McKibben-st., late Friday afternoon, damaged the building to the extent of \$500. The loss is covered by insurance.

## Story of the Siferd-Hossellman Company, Its Rapid Development to One of City's Large and Most Successful Enterprises

**Industrial Romance in Detailed Account of Great Strides Firm Has Made**

**System and Service Are Two Big Factors in Business**

"Service." That word was never coined to fit any business; the business must be made to fit the word. That's just what The Siferd-Hossellman Company Inc., has done.

Last November this company started in business, taking over the Siferd Service station at 173 South Main-st. and opening a new store and service station at 125 West Elm-st. The South Side store had been in operation three years under the efficient management of W. S. Siferd who is now a director in the new company and manager of the battery and electrical departments.

From the very inception of the Siferd-Hossellman Company, the one idea was to give absolute satisfaction to every patron, whether he bought a light bulb or had a dozen tires re-treaded.

The company limits its business to these automobile service departments: Batteries, battery repairing, new tires and tubes, vulcanizing and re-treading, and accessories, including oils and gasoline. Having only these features to claim their attention, each department has been made a large institution in itself, and each with separate management,

### OFFICERS AND MANAGEMENT OF THE SIFERD-HOSSELLMAN COMPANY

the business in Lima for years. It has been due to his efficiency that hundreds of auto owners in and around Lima praise the Siferd Battery Service so highly. Mr. Siferd was formerly a district electrical department manager for the American Telephone and Telegraph Co.

L. W. Hammond, formerly foreman at the Portage and New Castle rubber companies, has charge of the big vulcanizing and re-treading factory of the Siferd-Hossellman company. This department is equipped to re-tread any size tire or to do any kind of vulcanizing. Without an order when the department opened several months ago, this part of the company's business has grown so tremendously that it was necessary to take over the large basement room and put in more machinery. Today, if you were to enter the rubber room you would have the impression of going into an exclusive tire factory. From the motorcycle

size tires that are being repaired to the big 40x5 truck tires, the "finished" and "to-be-repaired" racks are constantly full.

When the Siferd-Hossellman company searched the markets for an agency for the best tires that could be made, Goodrich and India were chosen. Goodrich was selected for its many years of continued good service, for its high class fabric tires, its famous Silvertown Cords and its tubes of superior quality. India was selected for its extreme long mileage guarantee both on fabric tires and cords. This guarantee is backed by one of the mightiest rubber factories in the business.

The battery which Siferd-Hossellman company selected for its patrons has the longest and strongest guarantee of any high class battery on the market. It is the Philadelphia Diamond Grid with the slotted retainer walls, guaranteed to give twenty-four months of service. The

company now has 34 dealers thru-out this section of the country. In this connection it might be well to invite the people of Lima to inspect the immense battery repair and re-charging department of the Siferd-Hossellman service.

"Merely a phone call will bring Siferd-Hossellman service to your own garage. If you cannot drive to either of our service stations, phone and we will do the rest," that's the way W. S. Siferd spoke concerning his battery and electrical department and the same type of service is also true of all other departments from accessories to vulcanizing.

"It is surprising how people have come to use the telephone since they have realized the extent of Siferd Service. Our telephones are busy all day long answering calls for tire, battery and accessory service. We will go any where at any time."

While the writer was interviewing the management, a young man in-

terrupted long enough to say:

"Several days ago I was driving eight miles from Lima when something went wrong with the battery. I went to a farm house and telephoned the Siferd-Hossellman company. It seemed no time at all till the "S-H" electrical truck was there taking my battery out and putting in a "loaner" that I could use while mine was being repaired. The next afternoon, Siferd-Hossellman's sent a man to the house and installed my old battery. It has been working fine since. I merely relate this incident to show what quick results I got."

When you first enter the downtown store of the Siferd-Hossellman company, you are in the sales room where direct calls for tires, batteries and accessories are received. It is a busy place all the time and one wonders how they can handle such a great volume of business. But when one learns of the systemizing

of the various departments, how each is virtually a separate business separately cared for, you understand how the company is easily able to take care of the rapidly increasing business.

At the rear of the sales room is the order department. In a room back of this is the bookkeeping department. In the extreme rear, with entrance thru a paved alley from both Elm and Water streets, is the service station that will accommodate several cars and hundreds of batteries.

In the basement is a large tire stock room on one side and the great vulcanizing factory on the other. 125 West Elm-st was selected for the downtown office because of the location being especially adapted to this particular line of business. The street is wide, permitting easy access to the free air and water and gas at the curb. Women drivers particularly find it a desirable place to come for gas and oil because it is so easy to drive close to the curb and easy to pull away—no other machines in the way and a wide street. Service men are always on hand to take care of any needs for air or water, for which there is no charge.

To give Lima people an idea of the great volume of business done by this institution, the management gave the writer some figures on business done that were truly amazing considering the youth of the company: six carloads of tires and tubes have been sold since the opening day last November; 18 tons of new batteries; over 200 re-treaded and vulcanized tires; 5 lines constantly kept full of repaired and re-charging batteries; this together with minor departments such as gasoline, oils, etc., and the large accessory business.

"The general public is cordially invited to visit our plant and inspect the various departments any weekday," said President Hossellman. "We want the people to feel that this is their own service station and to feel free to telephone any time, for it is our business to come to you. We believe it does make a difference where you buy your tires, batteries and supplies. We have two stores that prove this assertion every day. If you buy the same make merchandise here that you can elsewhere, we aim to make it more than worth your while calling on us thru our improved service."

## POWER HOOPER IS GIVEN DIVORCE

Court Grants Decree to Monroe-tp Farmer

### IRENE STROHL WINS FREEDOM

Daisy B. Dixon Charges Desertion in Suit

Power Hooper, Monroe-tp farmer, was divorced Saturday from Mrs. Nellie Mae Hooper, to whom he was married June 23, 1912. The decree was granted on the grounds of neglect.

Hooper, who owns a large farm, an automobile and considerable personal property, was given all his belongings. Her dower in his property is barred.

### FOND OF AUTOMOBILE

He testified she lay in bed until the noon-time, claiming she was ill and that he was forced to do the family washing, care for the poultry and do the garden work. She was more interested in driving his high-powered automobile, he told the court, than in her household duties.

When she departed March 15, she left a little note saying she would not return. Later, she was taken from a train near Cincinnati in an alleged semi-conscious condition and returned to the home of her father, Charles B. Kauffman, Bluffton, where she is now said to be. The couple have no children.

### STROHLS ARE DIVORCED

Mrs. Irene Strohl, in a suit for divorce from Carl Strohl, charges he cursed her continually and that for the past two years has failed to provide. The couple were married in Lima on January 9, 1918, and have no children. She asks the court to restore her maiden name of Irene Orcutt.

### DESERTION CHARGED

Mrs. Daisy B. Dixon, in a suit for divorce from her husband, Perry M. Dixon, charges he told her he would provide for the children, but not give one cent to her. Mrs. Dixon says her husband was not present at the birth of their baby girl, Betty Jane, now seven months old, and that he has never seen his child.

They have two other little ones, Carrie, 7, and Edith, 3. She charges he abandoned them in August, 1920, going to Chicago, and that since in December of that year, has failed to provide for them.

The petition sets forth Dixon earned \$150 a month in a Lima factory before he left this city in August, 1920.

### SYRIAN PEDDLERS DRAW LIMIT FOR LICENSE LACK

"An honest effort is being made to curtail or eliminate as far as possible peddling of goods in Lima without license," Judge Emmitt Jackson declared Saturday morning, after he had fined Nick Jacobs and B. Setlor, Syrians, of Cincinnati, \$50 upon their pleas of guilty.

The two men with John Safe, another Syrian, were arrested Saturday morning by Chief Roush.

It is the contention of police that these peddlers not only violate city ordinance by peddling without license, but often frighten women into surrendering their goods.

Judge Jackson is sympathetic with the police department in seeking to eliminate the nuisance, as was demonstrated when he gave the two men the maximum penalty.

### TAX PAYING TIME IS EXTENDED TO JULY 20

Taxes in Allen-co may be paid as late as July 15. County commissioners Saturday voted to extend the time of settling with the county until July 15. Otherwise, according to law, books of the treasurer must be closed for the reception of taxes on June 20.

Taxes are coming in slow, according to Lehr E. Miller, treasurer. Persons who come to pay taxes are urged to bring along receipt obtained at last payment, to facilitate the work of clerks in locating property on the duplicate.

### DENIES CHARGE OF DISORDERLY CONDUCT

Pleading not guilty to a charge of disorderly conduct when arraigned before Judge Jackson in police court, Saturday morning, Charles Foley, 47, 1121 Fairview-ave, was cited to appear for a hearing Thursday morning.

It is alleged that Foley during a controversy with a neighbor, Mrs. Harvey Winter, used profane language.

## BOULEVARD LIGHT COST FIXED

Assessment for \$150,000 System is \$4.82 Per Foot

Assessments for boulevard lighting system installed on Main and High-sts last fall, will cost property owners in those thoroughfares \$4.82 per front foot according to report of the assessing board made to Vaughan Miller, city engineer, Saturday.

The section installed is known as contract No. 1 and was completed at a cost of approximately \$150,000, late in the fall. Some trouble was experienced with the system during the winter and complaints were frequently lodged with Elmer McClain, service director, that the lights were not working properly. It was explained at the time that the contract had not been finally accepted by the city. On one occasion McClain was aroused from slumber at 3 a. m. to give this explanation to a citizen who could not find his way home in the dark.

Council at a recent meeting approved appointment of an assessing board of three to fix the cost per front foot. The members, John Mohr, Sam G. Folsom and Dr. D. H. Sullivan, filed their report Saturday.

McHugh & Cole, contractors on sewer work in Nixon, Lakewood and Wendall-aves, completed their work Saturday, Engineer Miller states. Final measurements to fix assessments on property frontage will commence Monday. The approximate cost of the three contracts will be \$17,000.

## Children Cry for Fletcher's Castoria.

### When Baby Complains.

THERE ARE MANY WAYS a baby has of expressing any pain or irregularity or depression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry, restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong. Most mothers know that a disordered stomach, or bowels that do not act naturally are the cause of most of baby's sufferings. A call for the doctor is the first thought, but in the event of any delay there should be ready at hand a safe remedy such as Fletcher's Castoria.

Castoria has been used for baby's ailments for over 30 years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cure-all for every member of the family. What might help you is too often dangerous when given to a babe.

Castoria always bears the signature of *Chas. H. Fletcher*

## FEARS OVERTRAINING

## Carpentier Has Made Condition Too Early

Fear of overtraining appears to haunt Georges Carpentier and his manager. In his eagerness to be in complete trim when he faces Jack Dempsey on July 2, the French pugilist has, apparently reached top condition well in advance of the date of combat. That this situation is realized by his advisers may be inferred from the frequent changes in the announced training program and the statement that the next week or so, Carpentier would work when and how the impulses moved him to do so.

Several close observers of pugilistic conditioning methods have intimated recently that Carpentier was training at too fast a pace and for a bout to be held in the early part of July, and if a line can be gained for his last public workout the warnings are not without basis. While the challenger did not include in sparring matches with his partners on Thursday, his open exhibition of bag punching, shadow-boxing and body strengthening exercises appeared to produce an impression of fatigue out of proportion to the amount of physical energy expended.

## CUMSTOCK MAKES STATEMENT

Among those who watched the workout was Boyd Cumstock, former trainer of the University of Southern California track teams. Asked regarding his opinion of the exhibition, he said:

"Considered as a whole I would say that Carpentier's bodily development leaned toward that of a track athlete or acrobat, rather than a heavyweight pugilist."

"I was more interested, however, in his apparent lassitude and indifference throughout the work. This impression was heightened by the generally sober and sombre atmosphere which pervaded the spectators and camp retinue. Everybody spoke in a whisper and it appeared to have the general aspect of a funeral. If I were handling Carpentier I would import a court jester and a couple of negro minstrels to liven up the Frenchman. It would be a pity to see him mentally fagged out as Jim Jeffries was on the eve of just such an important contest."

## TAKES UP GOLF

Carpentier today passed up his usual road work to play golf. He motored with a number of friends to Garden City, Long Island and intended to return after lunch.

The challenger will do no heavy work today or tomorrow. He has promised, however, to attend a foreign relief benefit in Sosyn, L. I., and to spar a few rounds with one of his partners. He will resume training Monday and said today that he would probably repeat his six round sparring session of yesterday.

## SMACKED BALL IN OLDEN DAYS

BOSTON, Mass. — They hit the ball hard in the old days also, if the records of baseball's local historians are to be believed. Digging deep into their list of precedents, enthusiasts have found an instance of home run hitting that excels that of the Philadelphia-Pittsburgh game of June 1, when eight home runs were made.

Without reference to any question of a lively ball, or of pitchers restricted in the manner of delivery. It is written that on Memorial Day, 1894, on the old Congress street grounds here, nine home runs were made. Bobby Lowe cracked out four of those, Bug Holliday had two and Herman Long one. Jimmy Canavan and Harry Vaughan of the Cincinnati, also had one each.

## FIVE NAGS TO ENTER CLASSIC

CINCINNATI — Only five thoroughbreds were carded to start in the thirty-ninth running of the Latona Derby at Latona Saturday afternoon. Of these Behave Yourself, winner of the Kentucky Derby, and Black Servant, winner of the Blue Grass stakes, and the Proctor Knott handicap, will run as the E. R. Bradley entry and are expected to rule as favorites. Rangoon, from the stable of former Senator J. N. Camden, will be second choice, with Uncle Velo and Brother Batch the outsiders.

Unless more rain falls, the race will be run over a good, but not lightning-fast track.

The probable starters, weights and jockeys are:

Black Servant	126;	Lyke
Uncle Velo	126;	Pool
Behave Yourself	131;	Thompson

Rabbit Maraville.

For years there had been a gap in the infield of the struggling Pirate team. Last spring Rabbit Maraville was purchased by the club and apparently is the man needed to close the gap. He has been playing more brilliantly than ever at short and is one of the hitting stars of the team. This photo is the latest one of the diminutive star.

## Every College Man To Have Chance

CHICAGO — Every college man in the United States, whether on a conference team or not, will have a chance hereafter to hold a national college record, according to an announcement by Palmer E. Pierce, president of the National Collegiate Athletic Association.

Mr. Pierce appointed A. A. Stagg, of the University of Chicago, Joseph E. Raycroft of Princeton, and Dean Frank W. Nicolson, of Wesley University, a committee on college track and field records to pass on all marks made by college men.

Heretofore the records were approved by individual committees in each conference and men or non-conference teams consequently could not establish official college records.

## C'MON INDIANS

NEW YORK — Cleveland won an exciting eleven inning game from New York, 8 to 6. The Indians tied the score with three runs in the ninth, and won in the eleventh by scoring twice.

The game was featured by hard hitting, with home runs by Ruth, Smith, Garner and Mays. Ruth's home run was his seventeenth of the season.

Bagby was injured by stopping a thrown ball in the eighth inning and retired. Score:

	R	H	E
Cleveland	10	0	0
New York	6	1	0

Two base hits—Wambamans, Nungamaker, Meusel, Speaker, Thomas. Three base hits—Speaker, Roth. Home runs—Ruth, Smith, Mays, Gardner. Bases on balls—Mays 1; Bagby 2; Mails 1; Uhle 2. Hits—Bagby, 13 in 7-3 innings; Mails, 2 in 1-3 inning; Mays, 14 in 8 innings. Struck out—Bagby 1; Mails 1; Shawkey 2. Winning pitcher—Uhle. Losing pitcher—Shawkey. Umpires—Nallin, Wilson and Hildebrand.

## DEMPSEY RESUMES DAILY TRAINING

ATLANTIC CITY, N. J. — After a twenty-four hour layoff Jack Dempsey swung back into his training grind Saturday. The champion was away from camp the entire day Friday, motoring over to Camden, N. J., to bring back his Belgian police dog. The trip apparently was refreshing as Dempsey expressed a desire to resume work with the gloves, which probably will be done Sunday.

A physician who stitched the champion's damaged eye, told him that the wound had sufficiently healed to permit the resumption of boxing without the danger of further serious injury. Dempsey's sparring partners, however, will be compelled to wear headgear to lessen the possibility of reopening the cut. The wound has been ripped open twice since Dempsey started training, both times as a result of being butted.

## ZBYSKO MEETS FORMER CHAMP

ROCHESTER, N. Y. — Stanislaus Zbyszko and Ed (Strangler) Lewis have been matched to meet in this city June 27 for the world's heavyweight wrestling title. Zbyszko is the present champion, having acquired the title when he defeated Lewis last month in New York.

**AN ADVERTISEMENT HELPED HER**

Mrs. Lucille Mackey, 16 Ruess Vista St., Washington, Pa., writes: "Last winter my 3-year-old girl caught a cold which left her with a dry cough. It bothered her most at night and she would cough until she vomited. I think she must have had whooping cough. I saw an advertisement for Foley's Honey and Tar. I tried it and bought two bottles and her cough left her before she finished the second bottle. She had gotten fully thin, but now she is as fat as ever."—Chas. J. ## Frenchman Has Been In Game Longer Than Champ

Georges Carpentier has been fighting eight years longer than Jack Dempsey, the world's champion, yet Dempsey outranks the clever Georges as a knockout.

Tabulation of all the fights of importance either boxer has fought all big men, while Carpentier's record includes boxers who ranged from bantams to heavyweights.

The fact that Dempsey leads as a "kill 'em dead" boxer does not hide Carpentier's ability to go the limit and still win, however, as the same table clearly shows. In this department of the game the Frenchman is far in the van. He has won thirty-three battles on decisions against nine for Dempsey.

Of Dempsey's total battle of import 55 have been to a definite decision, 4 were draws and 2 no-decision affairs. In 35 of his fights Carpentier has had 79 goes to a definite verdict and 6 draws.

Twenty-five of Dempsey's victories by knockout have been scored in the first round. Carpentier's greatest number of knockouts in any given round is 6 in the third round.

## DEMPSEY BEATEN TWICE

Carpentier has been on the losing end of more or less important fights on nine occasions. Dempsey has been beaten three times. The men who won over Dempsey were Jack Downey, who got a decision at the end of a four-rounder in 1916; Willie Moohan who won a four-round decision in 1918, and Jim Flynn, who knocked Dempsey out in 1917. Flynn's credit for a knockout over Dempsey has always been looked upon with some suspicion, however.

Carpentier has suffered two knockout defeats, lost one battle because of a foul and lost six on decisions. He was beaten by an obscure fighter named Mazoir in four rounds in 1907—his first year in the ring. Two years later another obscure battler knocked him out in six rounds. Two negro fighters triumphed over him in 1910, Buck Shine beating him in eight rounds and Young Snowball taking his measure in four.

In 1911 Carpentier, still fighting in the lighter ranks, lost two fights, Dixie Kid, an American negro, beat him in five rounds and Henry Piet won from him in ten.

## PAPKE BEAT CARPENTIER

Two more defeats were dolled out to the Frenchman in 1912. He fouled Frank Klaus, the American middleweight, in the nineteenth round and lost. He was beaten by Boly Papke in seventeen rounds of a scheduled twenty-round contest, Papke beating him in almost every round, according to ringside critics.

The last defeat suffered by Carpentier was in 1914 when he took on

Joe Jeannette, the American negro, and was rather decisively whipped losing the decision at the end of the contest.

Here is a tabulation showing how many knockouts each fighter scored in different rounds—a statistical record that shows Dempsey far superior as a quick finisher.

	Dempsey	Carpentier

## A PSYCHOLOGICAL CASE

NATURE, wonder worker, whose strange fancies are as far beyond human understanding at times as the producer of the greatest mysteries that have baffled science for centuries, manifests her caprice in a manner often hitherto unheard of and in an entirely unexpected manner.

Witness, the case of Joseph Dippolito, a suicide in Cincinnati, whose strange infatuation for his own daughter impelled him to take her life and then his own. It is a sordid story, but presents a new side of a state of life and mental poise, or rather lack of poise, that battered down all the usual conventions and wandered far in an unknown field.

A native of Italy, Dippolito, was a tailor. He came to America twelve years ago, leaving his wife and little daughter in that far land. He succeeded in his vocation in Cincinnati and two years ago sent for his little family. The daughter had developed into a comely and charming young woman.

By some strange freak of mental twist, Dippolito was unable to look upon the buxom girl as his daughter, of his own flesh and blood, to be cherished and protected, according to the human standard. Lacking the ability to maintain his feelings within the bounds of expression of filial love and devotion, it became necessary for the daughter to repulse her father.

Probably becoming deranged mentally, as a result of his unnatural infatuation, Dippolito decided upon taking his own life and that of his daughter. He realized that he had lost the love and respect of his wife and daughter by his strange and unusual affection. Death appeared to him to be the only avenue of escape from it all.

This case presents a new avenue for penetration by scientists and psychologists. The Dippolito incident is probably not the only one of its kind, but it is an example of a state so unusual as to invite the attention and study of alienists.

## ART OF RAINMAKING

NOWADAYS not a great deal is being heard about rainmaking for the relief of arid territory, but it is noted that the artificial inducing of service in the form of moisture from the clouds is not a lost art, not by any means.

Alberta, Canada, has followed the example of Texas and has at last appointed an official rainmaker. He will receive the sum of \$1,000 for each inch of rainfall and since Charles Hatfield, the rainmaker, has begun operations over an area of 100 miles there has been a rainfall of one inch in ten days.

When Dyrenforth, the rainmaker of Texas, offered to produce rain, the legislature appropriated at first \$2,000 and later \$10,000 for his experiments. He was actually successful in producing rain. He based his theory on the fact that heavy discharges of artillery were usually accompanied by rain. On the third ascension in balloons after the discharge of a quantity of explosives, there was a considerable rainfall.

An eminent English authority, Sir Charles Napier, says that until power becomes much cheaper, it will be impossible to control the weather. However, Hatfield claims that he has found a method of tapping the clouds. In England the problem has not been to make

rain, but to stop it. Fog in London is a nuisance. All attempts to control them have proven unsuccessful.

In order to clear a space 400 yards wide it would require the consumption of 400 to 500 tons of coal per hour. The expense is prohibitive unless cheaper fuel can be found. As the cheapest fuel seems to be the heat of the sun, it is quite likely the fog will stay, even tho the rainmakers continue their success.

## UNITED STATES LEADS

THERE is not a country in the whole world according to the view of Representative Simeon D. Fess, that has the record for rehabilitation work among its former soldiers equal to that of the United States.

What the vocational education board is accomplishing for disabled world war veterans thru its rehabilitation service has been outlined to congress, in support of a \$15,000,000 appropriation for the further prosecution of that work. The board is using something like 2,000 schools and 8,000 plants and factories for the training of the men. It also shows that up to March 21, 1921, the board had spent \$89,521,414 since the passage of the rehabilitation act of June 17, 1918.

Of this amount, \$68,000,000 has been spent in direct allowances for maintenance of the men themselves. The overhead for the entire time since the organization of rehabilitation work, including rent, office equipment and supplies, salaries, printing, travel and subsistence of employees, telephone and telegraph, was approximately 14 per cent.

April 1, 1921, a total of 81,481 had entered upon training for pay, 10,496 without pay and 89 under the Elks' fund. On March 15 a total of 3,123 men were reported as having completed training and 7,370 having discontinued it. Approximately 50 per cent of the latter have entered employment as a result of the training. This is in addition to the 3,123 definitely reported as rehabilitated or completed.

What America has done and still is doing for her former soldiers is not charity. It is the performance of a duty. This country never has been remiss in its duty in that respect. Requests for funds for assistance of former soldiers of any of America's wars are seldom denied.

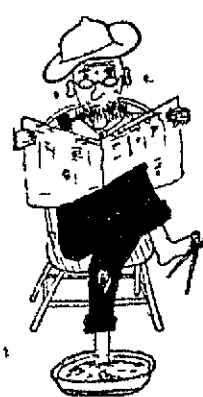

## AUTO POWER OF FUTURE

PREDICTION has been made that within a few years automobiles will carry individual stills to produce fuel for their own operation. This assertion was made by Thomas A. Edison, Jr.

In a discussion at the graduation exercises of the Knights of Columbus automobile school, in Boston, the son of the great American inventor said he had himself been seeking a substitute for gasoline, for ten years. He believes that the problem will be solved by the manufacture of individual stills to be attached to cars and operated by the heat and motion of the motor, to produce from petroleum and other ingredients a combustible mixture supplied as constantly as current is generated by electric cars while in motion.

A car of average power, in the opinion of Edison, Jr., could be equipped to produce sufficient fuel to run itself and enough by-products to pay for its maintenance. This is one of the announcements the world has been waiting for.

## WHAT THE STARS PREDICT

This should be a lucky day. The evening is an auspicious time for romance. Buying and selling come under a good augury on this day. The beginning of excessively warm weather is indicated at this time. Serious earthquakes will occur in the South and West. Persons whose birthday this is will have a pleasant, quiet year. Children born today will gain great fame. (Copyright, 1921)

## US BARCLAY, who says "You can tell the world that Neutrone Prescription '99' freed me of rheumatism."

The rapid recovery of Gus Barclay of 99 Clinton St., Kingston, N. Y., has again called attention to the remarkable curative effects of Neutrone Prescription '99'.

"Twelve years I have been all crippled up with rheumatism in my arms and legs. My feet would swell so that I could not even get my shoes on. My knees became so stiff that I could hardly bend them. Every step I took was agony. I could barely hobble around."

"No one knows what I suffered until I tried Neutrone Prescription '99'. After the first week I felt better. What a relief! It seemed too good to be true. All my aches and pains have gone; no more swellings, and my joints are all limbered up again. I feel myself a lucky man to be so well again after all these years. I can say that Neutrone Prescription '99' will prove a blessing to anyone suffering from this dreaded disease. Every rheumatic should take it, when relief is so sure."

"Neutrone Prescription '99' now comes in tablet as well as liquid form, whichever is preferred. Leading drug stores everywhere. Butler's Drug Store, Baldwin's Central Drug Store, Hunter's Drug Stores.

## "REPUTATION"

See Priscilla Dean in the masterpiece of her entire career.

Woman against Woman

Stuart Paton's Tremendous Drama of

Woman against Woman

Those who take the trouble to keep posted on good screen productions will need no inducement to make them wish to see "Reputation", which starts tomorrow at the Lyric theatre.

Reputation is a picture built up out of sensational and tensely dramatic situations, studded with heart throbs. It is woman against woman, and the title of itself will serve to allow one to anticipate with accuracy just what a treat is in store for them. Everywhere "Reputation" has shown, it has been a real sensation and it is heralded to-day as being at the head of the list of those screen successes which stand out prominently for the year.

As a star, Priscilla Dean needs no introduction to Lima people, as all will remember with pleasure her magnificent personality in the "Virgin of Stamboul", which showed recently at the Lyric to capacity houses for five days. The story deals with one of the really vital human problems and visualizes on the screen what reputation means and how very easily it may be ruined. You'll like this picture. It possesses all the elements which enter into successful productions. It is tensely dramatic at moments. It is loaded with thrills that reach the heart. It teaches a great lesson. It is crammed with entertainment. It starts tomorrow at the Lyric. Don't miss it.

"Reputation" is a picture built up out of sensational and tensely dramatic situations, studded with heart throbs. It is woman against woman, and the title of itself will serve to allow one to anticipate with accuracy just what a treat is in store for them. Everywhere "Reputation" has shown, it has been a real sensation and it is heralded to-day as being at the head of the list of those screen successes which stand out prominently for the year.

As a star, Priscilla Dean needs no introduction to Lima people, as all will remember with pleasure her magnificent personality in the "Virgin of Stamboul", which showed recently at the Lyric to capacity houses for five days. The story deals with one of the really vital human problems and visualizes on the screen what reputation means and how very easily it may be ruined. You'll like this picture. It possesses all the elements which enter into successful productions. It is tensely dramatic at moments. It is loaded with thrills that reach the heart. It teaches a great lesson. ## C. C. BOARD TO VOTE ON QUESTIONS SUBMITTED BY NATIONAL ORGANIZATION

More than 1400 business organizations in the country have been asked to vote on a series of taxation questions submitted by the board of directors of the Chamber of Commerce of the United States. The ballot was received by the Lima Chamber Friday.

The vote does not deal with amounts proposed to be fixed for the national organization.

## Mrs. WAGNER of PALM BEACH

Tells Girls How She Found Relief From Pain

West Palm Beach, Fla.—"When I was 19 years old I was irregular and I had such terrible cramps it felt like a knife going through me. I took Lydia E. Pinkham's Vegetable Compound and I was cured. After I was married I had the same trouble caused by the added work of farming and heavy washings so I told my husband to get six bottles of the Vegetable Compound and by taking it regularly my trouble ceased and now I never have a pain or ache, and am regular. I recommend Lydia E. Pinkham's Vegetable Compound and think every young girl should take it. You can publish this letter and it may be the means of helping some other girl or woman."

—Mrs. MARY M. WAGNER, Box 763, West Palm Beach, Florida.

While no woman is entirely free from periodic suffering it does not seem to be the plan of nature that woman should suffer so severely and when pain exists something is wrong which should be set right. Every girl who suffers from monthly cramps should give Lydia E. Pinkham's Vegetable Compound a fair trial.

tion's position on forms of levy which might be used to replace revenue lost thru the proposed repeal of the excess profits taxation to determine sentiment regarding continuation of war excise taxes and to get an opinion on what might be substituted for them.

One probable result of the vote will be to determine the Chamber's position on continuation of sales tax, on three forms of which members are asked to vote.

The ballot will be looked over by the Lima Chamber directorate and a ballot cast.

**WEST POINT ENGINEER** in fight for lost health says Phosphated Iron won the battle.

"I had no idea that anything on earth could do for me what Phosphated Iron has," said Mr. Ad Scott, construction engineer of West Point. "And I want to tell the world about this grand medicine, and all it has done for me."

"When I began taking Phosphated Iron, I could not work, never wanted to eat, my stomach was all out of order, and I had such pains in my kidneys and back, it almost drove me wild. I grew so nervous, it seemed as if I had to yell at the slightest sound. I lost weight and was going down hill every day."

"I heard so much about Phosphated Iron I decided to give it a trial. Right away I commenced to feel better. My appetite improved, and all my nervousness and indigestion disappeared. I have put on eighteen pounds in weight, and never had so much strength and energy."

"If anyone doubts this, let them write to me, and I will put them right. Words fail to express my gratitude for all Phosphated Iron has done for me."

**TROUBLED FOR TEN YEARS**  
If you suffer pains and aches during the day and sleep-disturbing weakness by night, feel tired, nervous and run down, the kidneys and bladder need to be restored to healthy and regular action. J. T. Osburn, R. F. D. No. 1, Lucasville, O., writes: "I had kidney trouble for ten years. I tried many remedies but they did me no good. I took Foley's Kidney Pills and they helped me so much that now I am well. Don't delay. Chas. J. Vorkamp, Main and McKibben Sts., Adv."
